

### Light System

**Step One:** Snap lamp holder into place between black rods. Ensure 'stem' is vertical.

**Step Two:** Slide on Light fitting.

### Wall Mount

**Step One:** Slide saddles onto the ends of the two LONGEST rods.

**Step Two:** Lay graphic on flat surface. Clip on the two LONGEST rods at the TOP of the Graphic Panel.

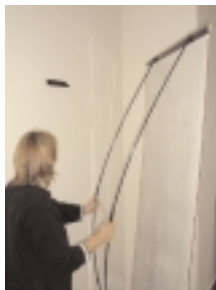

**Step Three:** Clip into place the remaining rods and snap cross-piece into place, just under the LONGEST rod's sleeve.

**Step Four:** Secure Wall bracket in selected place on wall. One screw in middle hole is usually sufficient.

**Step Five:** Lift graphic panel carefully and slip into wall bracket.

**Step Six:** ADMIRE!
